SUPPORTS FOR BIRDWATCHING
& SPORT OPTICS

2005/06

MANFROTTO, THE WORLD'S LEADER IN SUPPORT FOR BIRDING AND SPORT OPTICS

The world of nature photography and scoping demands rugged equipment that is quick and easy to operate, allowing you to concentrate on nature's beauty. Manfrotto proudly presents the VIEW family: a new range birding and sport optics kits designed to withstand the most extreme environments and to provide you years of trouble-free support. Our VIEW kits have small but important features, such as stainless steel fixings that will never corrode, leg-warmer pads to protect your hands in cold weather, quick-action leg locks to set up the tripod in seconds, and silky-smooth fluid heads to easily track your subject. With over 30 years experience and from listening to our users from every corner of the world, Manfrotto is the world leader in sport optics support and with these latest generation of VIEW kits, we present to you our finest range.

HOW TO CHOOSE THE RIGHT MANFROTTO VIEW KIT

Choosing the right equipment for birdwatching and nature photography can be daunting, so we've designed the following 8 kits to take the guess-work out, guaranteeing you the same superior performance you expect from your high-quality scope, binoculars or camera, providing you a strong yet lightweight support.

There are three easy steps to choose the right support:

- First, it's important to know the weight of your scope or camera. We have two categories of maximum load capacity: 5.5lbs or 8.8lbs.
- Second, you need to determine the maximum height you want the tripod to reach. We have two average heights (this varies depending on the head attached to the tripod): 59.1in or 70.9in.
- Third, you can choose the overall weight of the VIEW kit. We offer you kits with tripods constructed in aluminum or ultra-lightweight carbon fiber, which amounts to a 30% reduction in weight.

1 EQUIPMENT MAXLOAD FROM 1.1 TO 5.5lbs

KITS WITH HEAD 700RC2

For lightweight equipment we recommend the equally light 700RC2 fluid head. It's small and extremely compact yet provides beautifully smooth movements. A quick release plate allows for easy swapping of equipment and quick disassembly.

5.5lbs

Similar in height to the 190MFV, this aluminum equivalent provides the same outstanding performance at a slightly higher overall weight. The kit is comprised of the 700RC2 fluid head and the 190V aluminum tripod.

HEAD FEATURES

The head has a fixed length pan bar with soft handle and separate locking mechanisms for the 360° pan and the +90°/-75° tilt. Smooth and constant movements on both axes are assured by a fixed system of fluid cartridges. Equipped with quick release 3157N video plate system with VHS PIN and a secondary safety catch.

Kits with Head 700RC2
 Maxload 5.5lbs
 Maximum working height: from 70.3 to 71.5in

VIEW CARBON FIBER KIT 700RC2,055MFV

This is the ideal kit coupling overall light weight with maximum reach. This kit is designed for portability due to its carbon fiber construction and it has the extra reach to get your camera or scope up high. The kit is comprised of the 700RC2 fluid head and the 055MFV carbon fiber tripod.

VIEW ALU KIT 700RC2,055V

Similar in height to the 055MFV kit, this aluminum equivalent provides the same outstanding performance at a slightly higher overall weight. The kit is designed for extreme outdoor use and is comprised of the 700RC2 fluid head and the 055V aluminum tripod.

TRIPOD FEATURES

The carbon fiber and aluminum VIEW tripods share the common features of having four different leg angle options to achieve lower heights; foam rubber padding to protect your hands against the heat and cold; and quick-action leg locks to quickly and quietly set the tripod into position. In addition the carbon fiber and aluminum tripods feature non-glare finishing: the carbon fiber has a natural dark grey finishing, whereas the aluminum is painted with a dark green color.

Four different leg angles (25°, 43°, 73°, 90°).

Two foam rubber leg grips for cold weather use.

Quick-action leg lever lock.

This kit offers unbeatable low carbon fiber weight but is topped with the heavy-duty 701RC2 fluid head to support your heavier equipment. The kit is comprised of the 701RC2 fluid head and the 190MFV carbon fiber tripod.

Similar in height to the 190MFV this aluminum equivalent provides the same outstanding performance at a slightly higher overall weight, coupled with the larger 701RC2 fluid head. The kit is comprised of the 701RC2 fluid head and the 190V aluminum tripod.

HEAD FEATURES

The head is one of the most compact and lightweight two way heads found on the market and was designed principally to support the heavier spotting scopes, cameras and digital video equipment. Equipped with a fixed 3.3lbs counterbalance spring and a camera plate attachment made of a touch-and-go/sliding plate which can shift from +15mm to -15mm from the 0 point to deliver a wide range of balancing positions. Fluid drag on the head is fixed. The head has a fixed length pan bar with a soft handle and separate locking mechanisms to the head to adjust it as you like, the sliding quick-release plate system is based on the 3157N equipped with the standard anti-rotation VHS pin.

VIEW CARBON FIBER KIT 701RC2,055MFV

This kit offers the best of both worlds: tall and lightweight carbon fiber legs with the feature-packed, heavy-duty 701RC2 fluid head. The kit is comprised of the 701RC2 fluid head and the 055MFV carbon fiber tripod.

VIEW ALU KIT 701RC2,055V

Similar in height to the 055MFV kit, this aluminum equivalent provides the same outstanding performance at a slightly higher overall weight. The kit is designed for extreme outdoor use and is comprised of the 701RC2 fluid head and the 055V aluminum tripod.

TRIPOD FEATURES

The carbon fiber and aluminum VIEW tripods share the common features of having four different leg angle options to achieve lower heights; foam rubber padding to protect your hands against the heat and cold; and quick-action leg locks to quickly and quietly set the tripod into position. In addition the carbon fiber and aluminum tripods feature non-glare finishing: the carbon fiber has a natural dark grey finishing, whereas the aluminum is painted with a dark green color.

Four different leg angles (25°, 43°, 73°, 90°).

Two foam rubber leg grips for cold weather use.

Quick-action leg lever lock.

Kit accessories

SHORT COLUMN 055CCSB SHORT COLUMN 190CCSB

To improve the positioning flexibility of our tripods, a shorter center column is now available as an accessory which can be ordered separately. If you need to work with legs set at the third angle of inclination (about 60°) but still require the possibility to move the camera up and down to achieve perfect adjustment for the shot, this shorter column can replace the one supplied with the tripod. The lengths are 6.9in for the 055CCSB and 6.5in for the 190CCSB.

190CCSB for the following kits: 700RC2,190MFV; 700RC2,190V; 701RC2,190MFV; 701RC2,190V.

055CCSB for the following kits: 700RC2,055MFV; 700RC2,055V; 701RC2,055MFV; 701RC2,055V.

RUBBER/ STAINLESS STEEL SPIKED FEET

440SPK2
190SPK2N
441SPK2
055SPK2

Reversible rubber/metal spiked feet (set of 3) supplied with a dedicated fixing tool. The spike is made of a special hard anodized aluminum alloy extremely resistant to corrosion.

440SPK2 for the following kits:
700RC2,190MFV; 701RC2,190MFV

190SPK2N for the following kits:
700RC2,190V; 701RC2,190V

441SPK2 for the following kits:
700RC2,055MFV; 701RC2,055MFV

055SPK2N for the following kits:
700RC2,055V; 701RC2,055V

SUCTION CUP/RETRACTABLE SPIKED FEET

440SCK2
190SCK2N
441SCK2
055SCK2

Rubber suction cup feet (set of 3) with retractable stainless steel spikes. The suction cup increases the footprint of the tripod by almost 20 times, giving much greater stability when needed. The foot can be removed and replaced at will.

440SCK2 for the following kits:
700RC2,190MFV; 701RC2,190MFV

190SCK2N for the following kits:
700RC2,190V; 701RC2,190V

441SCK2 for the following kits:
700RC2,055MFV; 701RC2,055MFV

055SCK2N for the following kits:
700RC2,055V; 701RC2,055V

LONG SET BRACKET 3421

Specifically developed for use with very long lenses or scopes on monopods or tripods. Key features: friction base enables panning with the bracket; two rubber hand grips; rubber protection to prevent damage to lens when tilted to maximum, variable (three step) center height adjustment.

UNIVERSAL "ANTI TWIST" SPOTTING SCOPE PLATE 200USS

This adapter plate has been designed specifically to eliminate unwanted rotation of the spotting scope during viewing. Its universal design means it can be used to mount all makes of spotting scope, no matter what their foot shape (square, rectangular, trapezium), on the heads 700RC2 and 701RC2. The adapter is made from machine-tooled aluminum with a black anodized finish. In addition to the standard 1/4" screw, it has two grub screws to lock the spotting scope securely in position.

MONOPODS

The monopod is an important part of every photographer's support equipment. Besides the tripod, the monopod is the best way to hold a camera in situations where space is limited, the quantity and weight of the equipment carried on location needs to be kept to a minimum, or set-up speed is needed. Correctly handled, the monopod supplies all the camera support you are likely to need even for long lenses. Just look at the press and sports photographers - they would not bother with them if they did not get results!

676B

695

680B

694

DIGI MONOPOD 676

18.9in 60.6in 0.88lbs 9.9lbs

What's even more compact, even lighter, even quicker to set up than a DIGI tripod? A DIGI monopod! When you don't need the total "hands-free" support of a tripod, a monopod is a convenient shoulder to lean on. Four-section, lightweight monopod with rapid action extension locks for compact spotting scopes. 1/4" fixing screw.

COMPACT MONOPOD 680B

20.1in 60.6in 1.8lbs 22.1lbs

Four-section monopod featuring sure rubber grip, wrist carrying strap, quick-action lever leg lock system with 45° run, large 2.4in camera/head platform with plastic cover and dual 1/4" - 3/8" camera fixing screw.

MAGFIBER MONOPOD 5 SECTION 695

18.1in 63in 1.3lbs 11lbs

Five-section, lightweight carbon fiber and magnesium locking collars monopod. Extremely compact with a minimum length for transportation of 18.1in. Four leg extensions allow the monopod to be rapidly extended to a maximum height of 63in. The monopod is equipped with rapid action extension locks, a wrist strap and a camera platform with dual 1/4" and 3/8" camera fixing screw.

MAGFIBER MONOPOD 4 SECTION 694

20.9in 65in 1.3lbs 11lbs

Four-section, lightweight carbon fiber and magnesium locking collars monopod. Ideal for sporting events, allowing the photographer to shoot over the heads of everyone. The monopod has rapid action extension locks, a wrist strap and a camera platform with dual 1/4" and 3/8" camera fixing screw.

MONOPOD ACCESSORIES

UNIVERSAL FOLDING BASE 678

0.9lbs 30.9lbs

This unique accessory allows you to add a base made of three foldable high strength steel legs to the monopods 679B, 680B, 681B. After using them the legs can be folded and stored inside the bottom section of the monopod yet ready in a few seconds when needed.

MONOPOD BELT POUCH 3247

Worn on a belt, this easy-to-use pouch offers support for the base of a monopod.

MONOPOD QUICK RELEASE TILT TOP 3229

2.4in 0.6lbs 5.5lbs 3157N

Simple tilt head with quick release camera plate system and tilt secondary safety lock.

MINI BALL HEAD WITH RC2 RAPID CONNECT SYSTEM 484RC2

3.7in 0.7lbs 8.8lbs 3157N

This versatile head is fitted with a quick release 3157N camera plate system with a secondary safety catch. Head to tripod/monopod attachment is 3/8" female.

NEOTEC PRO PHOTO MONOPOD 685B

- 
29.3in
- 
67in
- 
1.8lbs
- 
17.6lbs

The fastest monopod in the world! The 685B features the innovative Neotec rapid opening and closing mechanism – just pull the leg downwards to open and it automatically locks in any position, with no screws, knobs, or levers to tighten or loosen. Then to fold it back up again simply release the safety latch and pull the trigger and push the leg closed. A convenient rubber pedal attached to the bottom section allows you to open the monopod without having use your other hand. It's 'upside-down' leg construction also prevents water or mud from entering the monopod and a padded leg-warmer protects your hands from hot and cold weather.

SELF-STANDING PRO MONOPOD 682B

- 
29.1in
- 
67.7in
- 
2.4lbs
- 
26.5lbs

All the features of the professional monopod 681 with a handy addition of three retractable legs. Dual 1/4" - 3/8" coaxial camera fixing screw.

SPIKED FOOT FOR MONOPOD 3257

Converts 679B, 680B and 681B series monopods' rubber foot to a spiked foot.

676SP2
695SP2
449SP2

RUBBER/STAINLESS STEEL SPIKED FOOT

Reversible rubber/metal spiked foot supplied with a dedicated fixing tool. The spike is made of a special hard anodized aluminum alloy extremely resistant to corrosion.

- 676SP2: for monopods 679B and 680B.
- 695SP2: for monopod 695.
- 449SP2: for monopods 676B and 694.

676SC2
695SC2
449SC2

SUCTION CUP/RETRACTABLE SPIKED FOOT

A rubber suction cup foot with retractable stainless steel spike. The suction cup increases the footprint of the monopod by almost 20 times, giving much greater stability when needed.

- 676SC2: for monopods 679B and 680B.
- 695SC2: for monopod 695.
- 449SC2: for monopod 694.

SUCTION CUP/RETRACTABLE SPIKED FOOT 677SC

A rubber suction cup foot with retractable stainless steel spike. The suction cup increases the footprint of the monopod by almost 20 times, giving much greater stability when needed.

For monopod 681B.

Alternative supports

COLUMN CLAMP 3424

This versatile clamp works with the removable center columns of the tripod. The clamp can be securely fixed to solid surfaces, bars or pipes from 0.39in up to 2.1in height/diameter.

SUPER CLAMP 2900

This universal clamp can be securely mounted on any tube from 0.5in to 2.1in. Supplied with ratchet lever. Attachment is 5/8" hexagonal socket.

CAR WINDOW POD WITH BALL HEAD 234RC,243

Clamps to a window or narrow sill to allow you to attach a lightweight scope. The window pod is also available without head: order code 3292.

BINOCULAR SUPER CLAMP 2893

Allows your tripod/head combination to securely support binoculars.

DOUBLE BALL TILT HEAD 155RC

Not strictly a tripod head, but an extremely versatile camera support used in conjunction with Super Clamp 2900. Supplied with quick release camera plate and secondary safety lock.

MAGIC ARM WITH QUICK RELEASE PLATE 2930QR

Your extra arm in the studio. One lever locks three pivot points. Supplied with a quick release camera plate with secondary safety lock based on the 3157N system. Ideal for mounting a camera or a camcorder exactly at the angle you need it. Fits any 5/8" female sockets, works especially well with 2900 Super Clamp.

VARIABLE FRICTION ARM WITH QUICK RELEASE PLATE 2929QR

Articulated arm with large locking knob. Variable friction and locking of arm obtained by adjusting the knob. Supplied with quick release camera plate with secondary safety lock based on the 3157N camera plate mechanism. Ideal for mounting a photographic or video camera exactly at the angle you need it. Fits any 5/8" female socket, works especially well with 2900 Super Clamp.

Straps and bags

LONG STRAP 3044

The 3044 strap is a basic but convenient way to carry your kit. It has a spring clip that fastens quickly to the steel ring at the shoulder of the tripod, and a closed loop that goes around the feet of the tripod and tightens to grip them securely. Features an adapter for compatibility with all Manfrotto tripods and rubberised fabric for comfort and to prevent the tripod from slipping off your shoulder.

LONG STRAP GREEN 102NAT

Same as 3044, but in green rubberized fabric to match our birdwatching and nature photography range.

LONG STRAP 3044NAR

Same as 3044, but made with a narrower black rubberized fabric (1.6in width instead of 2in).

SHORT STRAP 3044TSB

The 3044TSB is a simple loop strap, with a single spring clip that attaches quickly to the steel ring at the shoulder of your tripod. Features an adapter for compatibility with all Manfrotto tripods. Strap is in grey rubberised fabric for comfort and to prevent the tripod from slipping off your shoulder.

SHORT STRAP GREEN 402NAT

Same as 3044TSB, but in green rubberized fabric to match our birdwatching and nature photography range.

SHORT STRAP 3447

Same as 3044TSB, but made with a narrower black rubberized fabric (1.6in width instead of 2in).

NEW QUICK ACTION STRAP 401N

The perfect companion for walkers, cyclists, and birdwatchers on the move. Just secure to one of your tripod legs, bind the remaining legs using the adjustable quick release straps, sling the tripod over your shoulder and you're ready to go, with your hands free to grab those vital last minute items. The strap stays attached to your tripod at all times, so you're always ready to shoot, but also always ready to move.

BUCKET BACK PACK 540BB

The bucket back pack is specifically designed for birdwatchers and is more convenient than having to carry your tripod/head in your hand or on your shoulder, which makes it especially useful on longer journeys or on wilder terrain. Because you still need to know that you can release the tripod, set up and view in a few seconds, the bucket back pack is designed to hold the tripod/head with spotting scope attached. As shown above, the scope is cradled in the lower part of the back pack where its weight is better supported and less likely to swing off-balance and hurt you. The legs extend up your back and are firmly tied in position.

PADDED TRIPOD BAG 31.5IN MBAG80P

A padded carrying bag designed to protect your support equipment in all conditions. The Manfrotto bags feature the following:

- Asymmetric tapered shape allows you to store the tripod with the head attached.
- Quick-access padded top flap allows you to easily remove the tripod without having to unzip the entire bag, much like a quiver.
- Inner pockets hold accessories such as extra plates and lens caps
- Ballistic nylon, zippers and other materials are of the highest quality
- Can be hand-carried horizontally by the side handles, or vertically over the shoulder

UNPADDED TRIPOD BAG 27.6IN MBAG70

Same as MBAG80P but slightly smaller and unpadded.
